IN THE SECIFICATION

[0068]   Figure ~~13~~ <u>15</u> is a graph showing the impulse response 136 of the received multipath components. Since each received multipath component travels a unique path, it arrives at a receiver with a propagation delay determined by the length of the path 98_1, 98_2 ... 98_n. The impulse response 106 shows the collective signal magnitude of all the multipath components received at each propagation delay.
